CAREER OBJECTIVE

Aspiring software developer with a strong foundation in Java, SpringBoot, and web development technologies. Passionate about building innovative solutions and eager to apply my skills in a professional setting. Seeking an entry-level position where I can contribute to dynamic projects and grow as a developer.

TECHNICAL SKILLS

Programming Languages	Java, JavaScript, TypeScript, HTML, CSS
Frameworks/Libraries	SpringBoot, Spring Security, Spring Microservices, Hibernate, Angular, Bootstrap
DataBase	MySql
Tools	Git , Docker
Web Technologies	Responsive Design, RESTful APIs, Frontend/Backend Integration

PROJECTS

Car Rental System

Technologies: Java, SpringBoot, Spring Security, MySQL

- Developed a robust car rental management system with features for booking, managing fleet, and user authentication.
- Implemented secure user authentication and authorization using Spring Security.
- Designed and integrated RESTful APIs for seamless communication between frontend and backend.

Library Management System

Technologies: Java, SpringBoot, Spring Security, MySQL

- Created a system to manage book inventory, user registration, and loan transactions.
- Employed SpringBoot to build the backend and used Spring Security for secure access control.
- Optimized database queries to improve the system's performance and reliability.

LANDING PAGES

Technologies: HTML, CSS, JavaScript, Bootstrap

Bacha

Designed and developed a responsive landing page for a fictional product using Bootstrap for layout and styling

Elevuter

Created a visually appealing landing page focusing on product highlights and user interaction.

Remos

Built a dynamic and responsive website showcasing features of the Remos brand.

Nike

Developed a landing page reflecting Nike's branding, integrating animations and interactive elements.

EDUCATION

Sindh Madressatul Islam University

Bachelor's in Computer Science cont....

CERTIFICATION

Saylani	FrontEnd Development
Stepway	BackEnd Development
Coursera	Core Java
